

Quality Policy

Why

This is the purpose of our business.

We are reliable – in our products, processes – and in everything we do!
Because excellent quality results in satisfied customers!

How

This is how we do it and what makes us special.

Positive Quality Culture

We report quality issues openly and honestly. We use failures as a starting point for improvements.

Performance

We do not pass on defects or deviations. Quality is founded on data based decisions, immediate and effective execution.

Passion

Everyone in Senvion - at every level - is responsible for our quality and the customer satisfaction and can make a difference.

Teamwork pays off

Commitment, knowledge and skills of our employees – worldwide - and our partners, are the main ingredients for our success.

Break new ground

We challenge the status quo, we strive for innovation and simplification, we drive digital and agile solutions.

What

This is what we do

We deliver first class products, service and solutions.
We continuously optimize, not just our products, but every aspect of our business.
We ensure compliance with all requirements and customer expectations.
We strive to reduce Non-Quality costs at all levels.
Our processes are used to help us make a job more effective, efficient and simple.
